Hoisted Measurements

With tape rule fully hoisted on the head swivel shackle, please measure:

- A-** To the feeder (if any)
- B-** To the bearing surface of the tack fitting at the drum
- C-** To intersection of the headstay and the deck
- D-** To the cabin house at the mast
- E-** To the hull-to-deck joint
- F-** Pass tape around the shrouds as if it was the leech of the sail, then measure to the forward end of the track. Pull tight.
- G-** Pass tape around the shrouds as if it was the leech of the sail, then measure to the aft end of track

Deck Level Measurements

<p>Headstay - Aft</p> <ul style="list-style-type: none"> <input type="text"/> H- From the Headstay/Deck intersect to the fwd edge of track <input type="text"/> I- From the Headstay/Deck intersect to the aft edge of track <input type="text"/> J- From the Headstay/Deck intersect to the leading edge of mast 	<p>Centerline - Out</p> <ul style="list-style-type: none"> <input type="text"/> K- To the shroud base <input type="text"/> L- To the fwd edge of track <input type="text"/> M- To the aft end of track
